## PREFACE

Statistics in this publication include ship, barge, and plane unloads of fresh fruits and vegetables from sources outside the State and from outlying islands, as well as wholesalers' truck receipts from the island of Oahu. Direct sales to retailers are not included. Although imports made by the Armed Forces are excluded, quantities sold to commissary stores and to the Armed Forces by local dealers are included. Receipts of fresh fruits and vegetables by wholesalers may include quantities for processing and export.

Three tables have been added this year. Receipts from foreign sources have been broken down by months in Table IV. In order to give complete accounting of the total fruit and vegetable marketings in Honolulu, Tables XIV and XV have been added. These tables show total receipts of commodities not previously published, by origin, by all modes of delivery, and by air alone. These totals combined with the information contained in Table I and Table XII respectively, represent total Honolulu unloads of fruits and vegetables by the various modes of transportation.

## ACKNOWLEDGEMENT

The Federal-State Market News work was made possible through the cooperation of the Agricultural Marketing Service, United State Department of Agriculture, and the Hawaii State Department of Agriculture. The Department of Agriculture gratefully acknowledges the assistance of all those who contributed information. Steamship, barge, and air transportation companies furnished the unload data; records of Oahu truck receipts were obtained from wholesalers.
